

The Onitama game is a game that whenever your king piece gets eaten, you lose.

Game interface:

How to play:

- First select a mode, there are Human vs Human, Human vs Computer and Computer vs Computer
- Select a piece that you want to move
- Select a move pattern from the top or bottom of the screen, depending which side you're on
- Select a destination, the blue highlight will tell you which destinations are valid
- Undo undoes the last move you made
- Reset resets the board

Enjoy the game!
